About Me

Experienced web developer proficient in JavaScript and React, dedicated to achieving excellence and meticulous attention to detail. A creative and analytical problem solver with the ability to quickly adapt to new technologies. Excited about the opportunity to contribute to challenging projects and collaborate as a team to deliver high-quality results.
Hope you check my projects on my website.

Experience

PERSONAL PROJECT: SOL Y LUNA ECOMMERCE
Jul, 2023

-Provides a shopping platform enabling users to choose between two perfume sizes.
- Add selections to a cart.
- Allows customers to send orders to the seller via WhatsApp.

React.Js   TailwindCss   Vite.js React Router DOM

PERSONAL PROJECT: URL-SHORTENING
Oct, 2023

- A web app allows users to shorten valid URLs .
- Manage a list of their shortened links.
- It supports easy link copying and provides error messages for empty input submissions.
